Better Vacuum Cups, Inc. manufactures top notch vacuum cups/pods for all flat table Routers. BVC carries three sizes for height including 29mm, 48mm and 100mm. Standard cups are 135mm x 145mm and come as small as 135mm x 50mm with a possibility of holding material as small as 38mm.

Why they are BETTER:

- ~ All Better Vacuum Cups are made of a solid rubber material, therefore eliminating the need for the foam gasket material.*
- ~ The all rubber purchase point grips your product better than any other materials available.*
- ~ Due to the rubber material, tools are not damaged when the cups are accidentally routed into.*
- ~ BVC cups are extremely durable and can be dropped with no damage to the cup, table or material.*
- ~ All BVC flat table cups come equipped with a check valve, allowing you to leave the cups on the grid table without any vacuum leakage.*

BVC Flat Table Cup Package A:
