\$1399

Better Vacuum Cups Inc is proud to announce a vacuum hold down system

For the small or large shop we proudly release a vacuum hold down system that is easy to use. With a flip of a switch you can hold down a large entry way door or something as small as a 2" x 5" piece of material. Whether you use wood, metal or plastic this is a great hold down system. No more clamping problems and marring up soft woods. Use as many cups at a time as you want or control one cup at a time. Perfect for hand routing, sanding or spraying doors. Call today to order! 909.606.0140
